Programme Outcome Attainment 2022-23

We employ a comprehensive approach to measure student progress and program outcome attainment through a range of assessment methods, encompassing both Direct and Indirect measures. Our assessment strategy includes diverse evaluation tools such as Unit tests, common test examinations, University exam performance, assignments, projects, practical performance, internships, field studies, group discussions, seminars, debate competitions, and sports competitions.

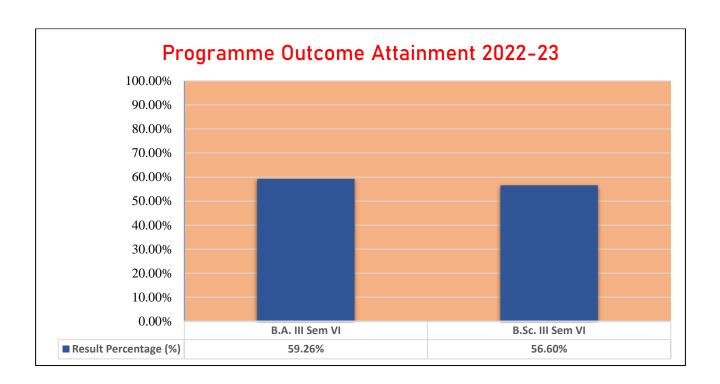

Furthermore, we gauge student achievement by considering participation in college and university-level competitions, involvement in various social activities like tree plantation, NSS-related initiatives, and other extracurricular engagements. In addition to academic assessments, we regularly evaluate students based on their behavior in class, active participation in college activities, contributions to class discussions, and overall class conduct.

This multifaceted approach ensures a holistic evaluation of our students, allowing us to track and enhance both their academic achievements and overall personal development.

In assessing program outcome attainment, we emphasize the evaluation of final-year examinations as a primary parameter. This key assessment method allows us to gauge the overall achievement of program outcomes by measuring students' performance in their concluding academic year.

- 4 (Very Good): 75-100 % of students successfully passed their respective courses each semester.
- 3 (Good): 50-74 % of students successfully passed their respective course at each semester.
- 2 (Satisfactory): 26-49 % of students successfully passed their respective course at each semester.
- 1 (Unsatisfactory): 0-25 % of students successfully passed their respective courses each semester.
